mathematics of space - nasa - space station program is a series of space shuttle mission rendezvous and docking activities with the russian space station mir. by bringing crew and equipment to mir, video synopsis title: the mathematics of space - rendezvous length: 17 minutes subjects: the mathematics of spacecraft orbital rendezvous. description: this program addresses the basic mathematical operations of spacecraft ...

lesson 3 - understanding distance in space - e missions - lesson 3 - understanding distance in space (optional) background the distance between objects in space is vast and very difficult for most children to grasp. the values for these distances are cumbersome for astronomers and scientists to manipulate. therefore, scientists use a unit of measurement called an astronomical unit. an astronomical unit is the average distance between the earth and ... **the brain in space pdf - nasa** - and active participants in this space mission. few experiences can compare with the excitement and thrill of watching a shuttle launch. this guide provides an opportunity for you and your students to go one step further by conducting the experiments on earth that are relevant to the research conducted in space. the brain in space teacher's guide is written for you, the teacher. the ... **marsbound! mission to the red planet - nasa mars rover** - a lander, orbiter, or fly-by mission to mars. teacher tip: space is provided for 5 science goals, but your students will be hard-pressed to design a spacecraft (under budget) that can meet all five goals. this constraint is intentional, as it will guide them to revise their mission plan by going all the way back to the original mission goals page. this iterative process happens quite often in ... **mission possible: looking at explorations and sensational ...** - mission possible: looking at explorations and sensational creations in outer space! grade level: third grade presented by: michelle albrecht, heidi mitchell and lauren volk, hardy oak elementary, san antonio, tx length of unit: eight lessons and a culminating activity i. abstract this is an eight lesson unit designed to immerse students into concepts regarding astronomy and space exploration ... **some famous unit conversion errors! 53 - welcome to space math** - in 2002, new axles were mistakenly ordered using the pre-1995 english specifications instead of the current metric specifications. problem 2 - a bolt is ordered with a thread diameter of 1.25 inches. **using math to make environmental decisions** - using math to make environmental decisions to the teacher: these problems are designed to help students understand that math is used in making real life decisions. the questions posed in the following situations are ones that businesses and people might realistically encounter. the numbers in these problems do not reflect actual costs but have been chosen based upon student instructional ... **suit yourself: fitted for space key concepts - nasa** - the space shuttle mission control center (mcc) and the international space station (iss) control center use some of the most sophisticated qualified engineers, scientists, doctors, and technicians, known as flight **thematic unit (pml)** **to infinity and beyond - curriculum** - introduce your learners to a meteor shower in outer space by using an app such as visual effects. depending on the number of tablets you have, encourage each learner to use this interactive app to experience cause and effect. encourage staff to use words like 'whoosh', 'wheel' and 'crash' as they talk to your learners. if you are still playing space music in the classroom, simply ... **space station educator's resource guide (pdf)** - space walks. during mission sts-104, the shuttle delivered and installed the quest airlock module to the international space station. mission specialists mike gernhardt (center) and james reilly (right) performed spacewalks to install hydrogen and oxygen tanks and attach power cables to fully activate the airlock. the international space station the international space station (iss) is the ... **afsc 1c6x1 space systems operations** - force space mission. the thrusts and vectors behind the globe represent the dynamic and infinite space environment. the deltoid symbolizes the air force's upward thrust into space, the reentry vehicles of our intercontinental ballistic missile force and the launch vehicles that place satellites in orbit. the ellipses represent orbital paths traced by satellites in earth orbit; the satellites ... **apollo 11 flight plan pdf - nasa** - the trajectory parameters used in this flight plan are for july 16, 1969 launch, with a 72° launch azimuth and were supplied by mission planning and analysis division as defined by the apollo mission g spacecraft operational **mission to mars - primary resources** - mission to mars: dialogue activity for upper ks2 fact or fiction: question 1: 3. just to check that the pupils understand how the questions work, and how important it is to read the question thoroughly. **national aeronautics and space ... - space math at nasa** - ms. green decided to pose a new activity using space math for her students. she challenged each student team with math problems from the mars math book. she copied each problem for student teams to work on. she decided to have the students develop a fictitious space craft to explore mars. each team was to develop a set of criteria that included reasons for the research, timeline and budget. the ...
